

## Changes made to the project to account for feedback

- File structure reorganized by changing how files are created in the makefile which is reflected in the repository, commit- <https://github.com/UBC-MDS/group04/commit/a584cce819dda238cc34>
- Made code modular by making functions, commits:
  - <https://github.com/UBC-MDS/group04/commit/3a38ab34c5fc212c7ac4000007ff70d212692e48>
  - <https://github.com/UBC-MDS/group04/commit/5aa65a7d2ac8838c8ffba2900314a2684ce9f09>
- Made code testable by adding test cases, commits:
  - <https://github.com/UBC-MDS/group04/commit/3a38ab34c5fc212c7ac4000007ff70d212692e48>
  - <https://github.com/UBC-MDS/group04/commit/771b2d98eddc16553e55621190f8fb2ccade4d8e>
- Added makefile to automate project, run complete analysis and reset repository to clean state, commit: <https://github.com/UBC-MDS/group04/commit/771b2d98eddc16553e55621190f8fb2ccade4d8e>
- Raw data has been linked in the main report
- Methods are described better in the README.md to make the project easier to access on another device
